Shore-Line Construction Enterprises, Inc.

4713B Forge Rd.

Perry Hall, MD 21128

Dear Jon and Kim,

I would like to express sincere appreciation for making a dream become a reality. When I told my parents that I found a piece of property and wanted to build a home, my father asked me if I really wanted to get into this and if I understood the commitment. By the end of that conversation, my parents knew how much this endeavor meant to me, and therefore, supported me throughout the process of seeking a builder to assisting with the oversight of the house from its initial to its final phase of completion. The final phase resulted in a quality built and well-crafted house from the exterior framing and decks to the interior cabinets and stairs.

Shore-Line was supportive with their insight and knowledge as well as patient with me and my now husband throughout the process of making all of the selections for one's home to putting the final touches on the house.

It has been a pleasure working with Shore-Line Construction. I recommend Shore-Line Construction to anybody who is considering building a custom home.

Thank you for helping the next chapter of my life become a reality where my husband and I not only have a home for our future but a solid foundation to plant family roots for generations to come.

Sincerely,

A handwritten signature in cursive script, appearing to read "Michelle LaScola-Wehner".
